

Lumesis, Inc. January 2016 DIVER Geo Scores Released

Proprietary Score Shines Spotlight on Texas and Louisiana

STAMFORD, CT – February 2, 2016

Lumesis, Inc. DIVER Geo Score results for January 2016 have been released. The DIVER Geo Score is a relative score of the economic health of a U.S. state, county or city. Based on a scale of 0-10, with 10 being the best, the Geo Score is calculated from multiple economic and demographic factors related to employment, income and housing and is updated monthly. The Geo Score helps market participants understand the economic health of every state, county and over 350 cities in a simple score.

"The list of worst performing states continues to be dominated by energy and commodity dependent States: Texas, Alaska, Louisiana, West Virginia, Oklahoma and Kentucky. Texas and Louisiana account for half of the worst performing counties." said Michael Craft, Managing Director of Credit at Lumesis, Inc.
