

Lumesis, Inc. August 2016 DIVER Geo Scores Released

Proprietary Score Shines Spotlight on Texas

STAMFORD, CT – September 12, 2016

Lumesis, Inc. DIVER *Geo Score* results for August 2016 have been released. The DIVER *Geo Score* is a relative score of the economic health of a U.S. state, county or city. Based on a scale of 0-10, with 10 being the best, the *Geo Score* is calculated from multiple economic and demographic factors related to employment, income and housing and is updated monthly. The *Geo Score* helps market participants understand the economic health of every state, county and over 350 cities in a simple score.

"Despite claims of policy makers that the economy of Texas is insulated from oil price slumps, seven counties and five cities in Texas are among the worst performing in the nation." said [Michael Craft](#), Managing Director of Credit at Lumesis, Inc.
