ABOUT

Lumesis provides software and data solutions for the US municipal market. Founded in 2010, the DIVER platform serves constituents across the municipal market with business and regulatory solutions.

The DIVER platform serves thousands of users across its diverse client base of banks, broker dealers, municipal advisors, investment advisors, institutional investors and issuers.

WHAT CLIENTS ARE SAYING...

The Lumesis team is routinely highlighted for their outstanding client service.

"Lumesis partnered with us to understand our needs and, using their obligor database and know-how, delivered a solution that meets our needs. They save us time and money while delivering a robust solution that they manage for us."
